

Objectives and Outcomes

Eastern and Southern Africa National Malaria Programmes and Partners
Annual Meeting
Uganda, Kampala, 3-6 October 2023

ESA National Malaria Programmes and Partners Annual Meeting

- The meeting covers 4 consecutive days
- Hybrid meeting and the link join virtually is available on RBM website here [ESA meeting](#)
- Participants of the meeting
 - ✓ All Countries in ESA sub-region and Yemen
 - ✓ Regional Economic Communities (EAC, IGAD and SADC)
 - ✓ CRSPC Partners

Specific Objectives

- To engage the National Malaria Programmes and partners to review the progress, identify malaria programme implementation bottlenecks, challenges, share best practices and propose solutions;
- To inform countries on the current malaria prevention control tools, perspectives to better plan and implement – updates from WHO and other partners;
- To give updates on GF implementation, GF application process, updates on gap analysis, updates on Global, regional and continental initiatives;

Specific Objectives

- To identify and prioritize the malaria program implementation bottlenecks for technical support through partners in 2024;
- To appreciate and learn from the best practices from Malaria Programmes on Equity, Human rights, and Gender Equality (EHRGE) implementation and the use of malaria matchbox tool;

Methodology

- General technical and implementation updates from CRSPC, and WHO, as well as consultation on RBM Implementation Plan
- Country presentations and discussions. Each country will have about 10 minutes to present
 - Use guidance provided by CRSPC. Send the gap analysis table to us.
- Updates from CRSPC partners (categorised by major malaria intervention areas)
- Breakout and Targeted sessions and one on one follow ups
- Best practice presentation / training on EHRGE

Outcomes

- Best practices shared
- Updated Programmatic and financial gap analysis
- Updated on new developments and policy directions regarding malaria interventions, practices etc
- Identified the Technical Assistance needs for 2024
- Orientated on EHRGE and on how to mainstream this aspect in national strategic plans

Thank you
